1. **Part VI** introduces you to some of Photoshop's most powerful features, including the Key Features and special features that are used in the book. 2. **Part VII** has you doing Photoshop projects, from simple compositions to more complicated artworks. In addition to these parts, we've also included several illustrations of examples of the type of things you would create if you were using Photoshop. We've provided samples of textured and finished images so you can see the results from this book. In the end, this isn't a book that will teach you everything you need to know about Photoshop (how much room does a book that is 15 inches by 11 inches by 1 inch—that's 38.5 inches—have?). Rather, it is a guide for Photoshop novices and intermediate users who want to learn how to manipulate images to achieve the type of results they are looking for. **Learning Photoshop Basics** For this book, we're assuming that the goal is to manipulate an image and create new ones. Whether you need to create images that will print or be displayed on a computer monitor, we want to make it as easy as possible for you to get started. For this reason, we're going to cover two important processes for getting to know Photoshop: learning the features and learning the basics.

[Infective endocarditis. Epidemiology and diagnostic problems]. At present it is clear that the scientific basis for antibiotic prophylaxis in cases of congenital heart disease and valvular heart disease is lacking. The patient's general condition, the valve lesion and the underlying disease are more important factors for the decision whether prophylaxis is justified than bacteriology. Prophylactic treatment cannot be expected to improve the outcome of the disease in every case and cannot be advised in patients in whom infections are an occasional complication of congenital heart disease. 244 So.2d 564 (1971) Ernest E. THOMAS and Lola Thomas, His Wife, Appellants, v. STATE FARM MUTUAL AUTOMOBILE INSURANCE COMPANY, Appellee. No. O-5. District Court of Appeal of Florida, First District. January 19, 1971. Rehearing Denied February 14, 1971. *565 C.E. Barnes, of Barnes, Koepfel & Barnes, West Palm Beach, for appellants. Keith W. Prather, and Betty S. Haber of Fowler, White, Humkey, Burnett, Hurley & Banick, Tampa, for appellee. SMITH, Judge. Appellant-plaintiffs appeal from final judgment in favor of appellee-defendant rendered on a jury verdict in a tort action for damages occasioned by an automobile accident which resulted in injuries to Ernest E. Thomas, appellant-plaintiff. Appellant-plaintiff Ernest E. Thomas, a juvenile, was involved in a one-car accident in a family automobile. He was treated at the hospital for minor injuries, and was released to his parents. Appellant-plaintiff Thomas had been in the hospital some three or four times and the circumstances of this occasion were those in which the family had had to insist on hospitalization. The vehicle in which appellant-plaintiff Thomas was a passenger was owned by Thomas's father, the appellant-plaintiff Lola Thomas, who, prior to this accident, had executed an insurance policy with appellee-defendant under policy provisions requiring the insurer to pay "all reasonable medical and surgical expenses" incurred by the insured. The insurer, however, disclaimed its obligation to pay for appellee-defendant's hospital and medical bills and refused to defend in the tort action filed against Thomas by appellant-plaintiff. At trial, after appellant-plaintiff had been able to prove his damages of \$100,000, the jury returned its verdict in favor of the insurer and against appellant-plaintiff, the driver of the car. Appellant-plaintiffs first contend that the trial judge erred in not permitting the insurer to waive the statute of limitations, since at the time of the accident the policy covered liability and medical payments only, and not personal injuries. Secondly, they contend that
